

DAV Global School, Patiala

Awareness among parents about blue whale game and seeking their co-operation

As you all are aware to the blue whale game and its fatal implications on the gullible kids who play it, we all have to sensitize our kids and keep them away if they are already playing these games.

Kindly keep an eye on your kids in case there is:

1. Any behavioural change e.g. getting up early in morning at odd hours, depressed, withdrawn etc.
2. Self-inflicted cuts or injuries on body especially in the shape of whale or any other design.

Do's

1. Check their mobile and browsing history.
2. Spend quality time with your ward.
3. Communicate freely with your child.
4. Kindly avoid cell phone facility to your ward.

Let us work together to help our kids and save many precious lives.

The school seeks your co-operation and support in this regard.
